## JANUARY, FEBRUARY AND MARCH 2013 <br> J.P. Morgan said, "Millionaires don't need astrologers but billionaires do".

Jupiter will appear direct $1 / 30 / 13$. Jupiter is one of the best indicators of financial success in both personal and incorporation birth charts. It is better to start a company or project with a direct Jupiter, or at least a well-positioned Jupiter as it is on the Signing Dates given. Mercury RX from 2/23/13 through 3/17/13 indicates caution in communications, particularly contracts signed during this period. They may need to be rewritten. A good example of the power of a Mercury RX station was on the U.S. Election Day, 11/6/12 when a new communications system put in place by the Republicans was not previously vetted and crashed at the beginning of the day. Best to use the Mercury RX 3-week period for rewriting, retesting, relaxing and reorganizing.

BEST MAILING DATES: 1/12/13-1/26/13, 2/10/13-2/22/13, 3/18/13-3/26/13 and 4/10/13-4/24/13.
BEST WORKSHOP DATES: Wed. 1/2/13, Sat. 1/5/13, Tues. 1/15/13, Mon. 1/21/13, Tues. 1/22/13, Sat. 1/26/13, Tues. 1/29/13, Thurs. 1/31/13, Thurs. 2/21/13, Sat. 3/2/13, Wed. 3/6/13, Tues, 3/12/13, Sat. 3/16/13, Mon. 3/18/13 and Sat. 3/30/13.

Q\&A:
Please explain STOP and GO on the calendar.
The STOP time means stop pushing ahead in sales, in promoting business activities you want to succeed. Stop means rest, relax, file papers, take a walk, do your laundry, meditate, make social calls and visit with friends, etc. GO means return to business activities, making sales calls, negotiating contracts, and arranging and scheduling appointments.

The STOP and GO periods are called Void-of-Course. This is a period of time each $21 / 2$ days when the Moon makes no major aspects with other planets in the solar system and until it enters the next zodiac sign. When you see a business or a new store open and close within three months, it most likely signed its contracts in Void-of-Course periods. Sen. Ted Kennedy announced his intentions to run for president each time on Void-of-Course periods. No major company on the stock exchange has a V/C Moon.

How exact do I need to be? When signing a contract, do I have leeway to sign or must it be exact? You must be exact (to the minute). Sometimes there is a "window", but most signing times quickly change from extraordinary to okay or not so good.

Do I use the city nearest my location as my choice for date and time to sign?
Yes, the nearest large city is within 100 miles of your location. Many subscribers live in suburbs and small towns close to a large city. If there is more than 100 miles and therefore a difference in the signing time, then your town is probably individually listed.
